

SANAM MAHARJAN

CA | (510) 860-8977 | mhr.sanam@gmail.com | [Linkedin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Developer with a strong foundation in full-stack web applications, skilled in React.js, Node.js, Python, JavaScript, HTML5, CSS3, REST APIs, Flask, and PostgreSQL. Experienced in building responsive interfaces and integrating front-end applications with backend services, with a strong analytical mindset and a focus on delivering data-driven solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3

Backend: Flask, REST APIs, SQLAlchemy, Jinja2, Authentication (JWT), CRUD, JSON, MVC, Node.js

Frontend: React.js, JavaScript, jQuery, HTML5, CSS3, Bootstrap, Responsive Design, Axios

Database: PostgreSQL, MySQL, SQLite

DevOps & Tools: Git, GitHub, Docker, Docker Compose, Nginx, Gunicorn, Linux, CI/CD (GitHub Actions), Postman, VS Code

Core Concepts: OOP, Data Structures & Algorithms, SDLC, Agile/Scrum, Design Patterns, Unit Testing, Debugging, Asynchronous Programming

PROJECTS

Springboard Bootcamp

- Built a responsive React front end with Axios for API integration and a Node.js backend connected to PostgreSQL.
- Validated and hardened API endpoints with Postman and Insomnia, uncovering defects and performance bottlenecks while tuning SQL queries to improve response times and data reliability.
- Design, develop and test HTML5, CSS3, Bootstrap, Javascript, jQuery and React.Js that meet accessibility and web browser standards for websites.
- Designed CSS templates for use in all pages on the website working with CSS background, positioning, text, border, margin, padding, table and used Media Queries to deal with different CSS related issues on different devices.
- Extensive experience working with CSS- Borders, Layouts, Positioning, Animations, Text, Margin, Pseudo classes and elements.
- Developed RESTful APIs using GET, POST, PUT, and DELETE methods, implemented JSON Web Token authentication and authorization in Node.js, and deployed with Docker and Render.
- Worked with React Router, React components, state, props, forms, events, keys, and animations.
- Component for UX-Library consisted of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown and many more.
- Involved in complete SDLC – Requirement Analysis, Development, System and Integration Testing.

PROFESSIONAL EXPERIENCE

Tesla | *Production Control & Quality Analyst*

2016 - Present

- Applied data analysis, production monitoring, Lean Six Sigma tools, cross-functional collaboration, root cause analysis, and analytical reporting to streamline manufacturing workflows, reduce defects, and enable faster, data-driven decisions in a high-volume production environment.

EDUCATION

Tribhuvan University | *Bachelor of Industrial Engineering*

Springboard | *Software Engineering Career Track*

Cornell University | *Professional Certificate, Python Programming & Python for Data Science*

CERTIFICATION

- Software Engineering Certificate: Professional Certificate
- Python Programming & Python for Data Science: Professional Certificate
